

Kareem Hassan

SAYS

- "I want to become an engineer and make the world a better place."
- "I love spending time outdoors, exploring nature."
- "I enjoy tinkering with gadgets and figuring out how they work."
- "I find complex learning a bit challenging and overwhelming."

THINKS

- "I wonder how I can use my engineering skills to have a positive impact on the environment."
- "I'm curious about programming and how it can help me in my future career."
- "I wish there were more exciting and fun ways to learn complex subjects."
- "I dream of creating innovative solutions to real-world problems."

DOES

- Kareem spends time exploring the outdoors, hiking, and enjoying nature.
- He seeks out online resources and books to learn about engineering and programming.
- Kareem may get frustrated when faced with boring or overly complex learning materials.

FEELS

- Kareem is enthusiastic and optimistic about his goal of becoming an engineer.
- He feels a strong connection to the natural world and is inspired by it.
- He is eager to learn programming, but complex topics may make him anxious.
- Boring learning methods can make him feel disengaged and frustrated.
