

*Empowering our children with education and technology creates a path for them to explore, learn, and innovate, making their journey in the modern world more fulfilling*

## Goals

- Empower kids with programming.
- Strengthen family bonds.

## Frustrations

- Balancing life, parenting, and education.
- Managing time and resources.

## Sarah Taha

**Age:** 40

**Education:** Computer Science

**Hometown:** Seattle, Washington

**Occupation :** Software engineer

**Family :** Husband and two children

Sarah enjoys reading, gardening, outdoor nature walks with her family, and cooking with her kids. She values education, encourages her children to learn programming, and actively supports their coding education.
